## Summary

Detail-oriented software engineer with **full-stack development** experience, specializing in scalable web applications. Proficient in **React, Node.js, and MongoDB**, with a solid foundation in **PHP and MySQL**. Recognized for **problem-solving abilities** and **effective collaboration**. Seeking a challenging position to leverage technical skills and contribute to **innovative projects**.

## Experience

### Software Engineer Intern

Feb 2024 – Apr 2024

*FreedomLabs*

*Remote*

- Contributed to the **full-stack development** of a complaint management system, streamlining over **100 student complaint submissions** per semester.
- Utilized **PHP** and **MySQL** to create a **user-friendly platform**, improving efficiency and providing **real-time updates** for students and administrators.
- Managed and resolved **75%** of complaints within **3 days**, significantly enhancing **transparency** and **efficiency** in hostel management.

### Freelance Web Developer

Jul 2024 – Aug 2024

*FocusAddict*

*Remote*

- Designed and developed a scalable e-commerce platform using **React, Node.js, and MongoDB**, achieving a **25% increase** in user engagement and significantly reducing load times through effective caching and optimized API endpoints.
- Strengthened transaction security and payment reliability by integrating JWT, Razorpay, and Stripe, resulting in a **40% boost** in payment completion rates and enhanced user confidence.
- Implemented **RESTful web services** and caching strategies to streamline data processing and enhance transaction security, effectively supporting the integrated payment systems of **Razorpay and Stripe**.

## Projects

### Super - Course Generation Platform | [Link](#)

4

- Developed a web application that generates personalized educational courses using user inputs, integrating YouTube and OpenAI APIs for video content and summaries to enhance the learning experience.
- Created wireframe designs using **Figma** and developed a dynamic frontend with **React.js and Tailwind CSS** for an engaging user interface. Integrated **RESTful APIs** for real-time data display, enhancing interactivity and security.

### Tourism Platform | [Link](#)

4

- Designed and developed a secure full-stack tourism platform to streamline user authentication and registration for tourism site owners.
- Implemented session management using **PHP and MySQL on XAMPP** to enhance security, conducting rigorous testing of database interactions to ensure seamless integration and data integrity.
- Successfully registered over **30 tourist destinations**, enriching platform offerings and boosting **user engagement** through real-time updates.

## Achievements

- Secured **1st rank** in VIT Bhopal University's **Immersion Program**, successfully clearing all 4 rounds among 2000 participants.
- Secured a global rank of **6561** and achieved a 3-star rating on **CodeChef**.

## Education

### Vellore Institute of Technology, Bhopal

2021 – 2025

*Bachelors of Technology, Computer Science and Engineering (CGPA: 8.04)*

*Madhya Pradesh, India*

## Technical Skills

**Computer Languages:** Java, Python, JavaScript, PHP, HTML5, CSS3

**Software Packages:** React.js, Node.js, Bootstrap, Tailwind CSS

**Databases/Cloud:** MySQL, MongoDB, Amazon Web Services (AWS)

**Developer Tools:** GitHub, Figma (Design Software), Postman

**Certifications:** AWS Certified Developer – Associate, Front End Development Libraries
